ANKIT SINGH GUSAIN

Frontend & Full-Stack Developer

Tehri Garhwal, Uttarakhand, India | +91-8826041265 | ankit.gusain97@gmail.com

PROFESSIONAL SUMMARY

Frontend & Full-Stack Developer with 3.5+ years of experience building, testing, deploying, and maintaining scalable web applications using React.js, JavaScript, RESTful APIs, SQL, AWS, and Git. Experienced in developing responsive web and mobile applications for the banking domain, integrating financial products with backend services through REST APIs. Skilled in frontend architecture and application design, API integration, debugging, performance optimization, and application maintenance, with proven experience collaborating with backend and cross-functional teams to deliver reliable, secure, and user-focused solutions.

PROFESSIONAL EXPERIENCE

Associate Software Engineer January 2024 – July 2024

Decimal Technology Pvt. Ltd., Gurugram

- Managed and maintained a banking application for AUCC Bank, handling production issues, client-driven enhancements, application optimization, and ongoing feature development.
- Collaborated directly with the client through daily requirement and status calls, translating business requirements into technical solutions and delivering priority enhancements within defined timelines.
- Owned the production defect lifecycle by performing root-cause analysis, prioritizing fixes, and maintaining the bug backlog to ensure timely resolution of critical issues.
- Developed and integrated application features using React.js, JavaScript, RESTful APIs, and SQL while collaborating with backend and cross-functional teams to ensure reliable data flow, application stability, and optimized performance.

Software Developer October 2020 – January 2024

Saarathi Finbiz Pvt. Ltd., Gurugram

- Developed and managed authentication, authorization, and onboarding modules for customers and DSAs across web and mobile applications, integrating Aadhaar, PAN, and third-party KYC services.
- Designed and implemented end-to-end loan journeys for Personal Loan and Working Capital products, covering frontend architecture, backend integration, database changes, notifications, and product workflows.
- Owned the architecture and integration of multiple banking partners, including DMI, PNB, and Cholamandalam, adapting their APIs and loan-processing workflows to the existing application ecosystem.
- Collaborated with clients and cross-functional teams to analyze business requirements, define technical solutions, coordinate development tasks, and ensure seamless frontend, backend, and database integration.
- Managed production issues and prioritized critical customer and DSA defects, performing root-cause analysis and optimizing application performance, stability, and maintainability.
- Managed Sprint planning and Jira workflows while coordinating team deliverables.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Redux Toolkit, React Router, Bootstrap, Vite, Responsive Design

Backend & APIs: Next.js, Node.js, RESTful APIs, Third-Party API Integration

Database: PostgreSQL, MySQL, SQL Server, Prisma ORM

Payments & Validation: Razorpay, Zod, API Validation

Testing: Jest, React Testing Library

Cloud & DevOps: AWS S3, Vercel, Git, GitHub

Practices & Tools: Agile/Scrum, Code Reviews, Debugging, VS Code, Figma, Sketch, Linux, Windows

PROJECTS

UKHILLS OVERSEAS - E-commerce application [On Production]

- Developed a full-stack e-commerce platform using React.js, Redux Toolkit, Next.js, Node.js, Prisma ORM, and PostgreSQL for customer and admin workflows.
- Built responsive product, category, cart, checkout, authentication, and order management functionality with REST API integration.
- Implemented role-based Admin/Customer authentication using secure HTTP-only session cookies, bcrypt password hashing, and protected API routes.
- Developed an Admin Dashboard for product, category, variant, inventory, and order management with support for multiple product weights, pricing, SKUs, and stock.
- Integrated Razorpay payments, including order creation, payment verification, payment status, and order processing workflows.
- Designed relational database models using Prisma and PostgreSQL for Users, Categories, Products, Product Variants, Orders, and Order Items.
- Deployed frontend and backend independently on Vercel with Neon PostgreSQL, configuring production environment variables, CORS, API connectivity, database migrations, and authentication.
- Migrated and validated 36 products and 108 product variants from the development PostgreSQL database to the production environment while preserving relational mappings.

Tech Stack: React.js | Redux Toolkit | Next.js | Node.js | Prisma | PostgreSQL | Neon | Razorpay | REST APIs | Git/GitHub | Vercel

Personal Portfolio Website [On Production]

- Developed a responsive portfolio using React.js, JavaScript, and Vite, showcasing professional experience, projects, technical skills, education, and certifications.
- Implemented a modular component-based architecture with reusable React components, functional components, responsive layouts, and smooth section-based navigation.
- Built a responsive and interactive UI using CSS3 and React Icons, optimized for desktop, tablet, and mobile devices, with Vite-based development and production builds.

Tech Stack: React.js | JavaScript (ES6+) | Vite | HTML5 | CSS3 | React Icons | Responsive Design

UK-HILLS Travel & Tourism Platform [Development Phase]

- Developed a responsive tourism platform covering 100+ Uttarakhand destinations using React.js, JavaScript, Vite, HTML5, and CSS3.
- Implemented component-based architecture, React Router, lazy loading, and Suspense for modular development and optimized application loading.
- Built dynamic search/filtering, booking workflows, destination discovery, and adventure modules using reusable React components.
- Integrated React Leaflet for interactive maps and Framer Motion for UI animations; deployed the application on Vercel.

Tech Stack: React.js | JavaScript | Vite | React Router | React Leaflet | CSS3 | Framer Motion | Vercel

EDUCATION

Bachelor of Computer Applications (BCA)
St. Andrews Institute of Technology & Management, Gurugram
August 2018 – August 2021
Percentage: 75%

CERTIFICATIONS & TECHNICAL EXPERTISE

- Advanced React.js Development
- AI-assisted development with ChatGPT, Claude, and Gemini for code generation and problem-solving
- Hardware & Networking Fundamentals
